

WHO WANTS AN AUTOMOBILE

JOURNAL HAS FIVE FOR SALE—MANSHIP CLUB WINS

Any Wide Awake Man or Woman in Nebraska Can Put Spare Time to Good Advantage.

The man or woman who wins the \$1,000 Red touring car that is to be given away by The Journal as the first prize in the "Salesmanship Club" campaign, will indeed, be a fortunate person, and one that will be envied by all his or her friends and acquaintances.

Just who that someone will be is what is to be decided by the campaign which is just started, and which ends on December 10. The winner will, of course, be determined by the activity of those who are engaged in securing subscriptions to The Journal. The one who earns the most credits, and credits are given only on subscriptions, will be the winner of the much desired car.

First You Must Enter.

There is one thing sure, if you do not enter you cannot win. To enter the campaign is the first step necessary to success in this undertaking. It may be that some of the more than seventy-five people so far entered will be the fortunate ones, and it is very likely, on the other hand, that the winners have not as yet entered the campaign. All of that remains to be seen.

The Journal can only say that there is still room for many more entries in all of the districts. There are nearly as many members as there should be—not nearly as many as a proposition of this magnitude warrants. It is not too late to enter. The campaign is just getting under way. People are entering every day; more have entered during the past two or three days than at any time since the campaign was announced. No one has as yet made a showing that cannot easily be equaled. So it is up to you as to whether or not you will become a member of this busy organization.

Send In Your Name.

You can become a member by sending in your name today, and by so doing share in the rich rewards, or you can pass by this exceptional opportunity and allow someone else to win what might have been yours. The Journal offers you the opportunity but you are the one who must take advantage of it.

There is one thing that cannot be impressed too strongly, and that is the importance of making a showing during the first part of the campaign. New subscriptions which are turned in between now and November 1 count on the big extra credit offer, which earns \$50.00 extra credits for every \$15 worth of new subscriptions. Never again during the campaign will as liberal an offer be made, and those who make a showing now will have a big advantage over those who wait until later.

The standing of members will be printed again on Wednesday.

STRIKE IN HANDS OF REDS
That is the Opinion of Colonel in Command of Troops at Gary.

Following is the first of two articles, written at the request of the United Press by Henry Bruce Snyder, editor of the Gary (Ind.) Evening Post, analyzing the present industrial situation at Gary and giving particular attention to the reports that the city is a center of anarchistic and revolutionary activity. The second article will be published tomorrow.

GARY, Ind., Oct. 20.—Reports have exaggerated largely the serious situation that exists in Gary. Until all metropolitan newspapers develop a type of news gathering that aims at truth rather than sensationalism, a few of them will continue to aggravate a growing distrust of their news sources on the part of labor. Stories of riot and bomb throwing anarchists here are totally unfounded. The only disturbance of any moment occurred a few moments before the United States soldiers arrived, and it was the direct cause of the soldiers being called. Some two thousand strikers paraded, led by three hundred khaki-clad ex-soldiers on ahead a mass meeting in defiance of the orders of Mayor W. F. Hodges. It was a direct challenge to law and because of the meagre force of state militia the mayor could only ask the government for aid.

Since then there has been no disorder. The city is under military control and the strikers say openly they are glad the military was called in. Except for soldiers on patrol, Gary today is the Gary of a month ago. It is practically impossible to learn the degree in which foreign workmen would have been infected by bolshevism.

HOUSE CONTINUES TO IMPROVE
NEW YORK, Oct. 20.—Col. E. M. House, confined to his bed since arriving here from Europe, was up today, gaining strength rapidly, according to reports from his home. It is expected he will be able to leave for Washington within ten days.

How Much Tobacco Will My Heart Stand
A Question Vital to Every Man Who Smokes or Chews

IT MAY COST A PRECIOUS LIFE TO FIND OUT BY EXPERIMENT.

The heart of every user of tobacco bears a double burden. It does its allotted task and then fights nicotine for supremacy. As long as the heart wins the fight, when it loses the heart is the final victory of nicotine you pass thru many stages of decline and decay as you suffer many pangs. Heart ailments—some are stronger than others, therefore some hearts will stand more tobacco than others, but there is a limit to what any heart can stand. The man who puts this additional strain on his heart a dozen times a day by smoking cigarettes, a pipe or chewing tobacco—is taking a madman's chance with health and life to lose and nothing to win but the chance that he may not lose them. He is indulging in a costly habit at the expense of precious health. Ask any doctor anywhere, and he will tell you that using tobacco is injurious and that it is far better to find how much tobacco your heart will stand without serious results.

But the thought of quitting is unpleasant to most men—even to those who know that tobacco injures them—and to really quit they need more will power than they have and causes more suffering than they can voluntarily endure. To quit the

habit make it easy for yourself by getting Nicotol tablets and taking them as directed. The habit really quits you and its departure is a pleasure equal to its indulgence.

If you want to know how much easier it is to quit the habit with Nicotol than without it, go twenty-four hours without tobacco and note what an effort it costs you, then begin using it as usual and take Nicotol tablets. At the end of a week discontinue smoking or chewing for a day and it is probable you will have no desire to resume. At least your desire will be greatly diminished and another week or two should make it not only possible, but a pleasure, to quit.

NOTE: Dr. Connor, formerly of Johns Hopkins Hospital, under whose advice Nicotol has often been used, said when this statement was shown to him: "I have known Nicotol to conquer the tobacco habit in less than ten days' time and I can therefore recommend it highly." When the doctor's statement was shown to one of our leading druggists he said: "Nicotol is truly a wonderful remedy for the tobacco habit, way ahead of anything we have ever sold here. We are authorized by the manufacturer to refund the money to every dissatisfied customer and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol is sold in this city under an iron-clad money-back guarantee for thirty days without charge, including the Harley and the Rector stores—Advertisement.

Don't Fail to See These Wonderful Values

before buying your fall shoes. We are offering for a few days, any gray shoe in the store for \$1.00 less than the regular price. These are in the cloth tops as well as all leather shoes and are priced below the wholesale price on today's market.

We invite you to inspect these shoes at Harry's.

shovism. The military believe the infection is widespread, not only in Gary, but in every other similar industrial center. Colonel Mape, who is in command of the troops, said: "We have conclusive evidence that the strike is in the hands of the reds and we can prove it." The military believe that a large percentage of the men still out on strike are led by bolshevik beliefs. The radicals have ran the gamut of their wares. Men of foreign birth, foreign breeding; men often who cannot understand the English language and have not the slightest conception of American ideals, have been the real teachers and leaders of many of the foreign groups. As a result, rattle-brains who have no understanding of the difference between the civilization of Russia and America, have been telling these people they can take over the mills and many have believed it. We have known here in Gary that the radicals were at work. But they speak in a foreign tongue and not until the army came did any one have any comprehension that the infection is as widespread as military investigation would indicate. And even now some of the people wonder if the military are not seeing things.

There is no general belief that the Gary radicals would attempt a revolution. A very large majority of potential bolsheviks have no heart for "rough stuff." If they take over the mills they will want to put on their Sunday clothes, march over to the mills and let the bosses do the work. That sort of bolshevism is not very dangerous unless it is given untrammelled leadership by men of action. It is these men of action the military are seeking out. Thus far eight military get to work with Gary they expect to have the trouble makers, who, with few exceptions are aliens, turned over to the immigration authorities. All of which would indicate that Gary is not the center of a nation-wide conspiracy as some reporters have imagined. Chicago is the center of American radicalism. Gary is only one of a number of infected industrial centers, but its proximity to Chicago has made it something of a radical experiment station. The situation, while not alarming, is serious. Alien agitators must not be permitted to teach immigrants their ideas of America. A vast deal more effort must be made by Americans to do our Americanizing. But the trouble cannot be settled unless there is a change in the relations of capital and labor. Unless labor is satisfied the radicals will succeed in their undoubted effort to seize the machinery of unionism. Then the situation will not only be serious but alarming.

Here in Gary we are watching the industrial conference with intense interest that has back of it the knowledge the steel industry needs a new deal.

PIONEER ON AIR JOY TRIP
Miss Ellen Harn, Ninety-one Years Old, Longtime Suffragist, Trips Flying.

KENESAW, Neb., Oct. 20.—Miss Ellen D. Harn, well known in Nebraska as a suffrage and prohibition worker, ninety-one years old, took her first air flight the other day. She is an old teacher and remembering the things she had read about Darius Green and his flying machine years ago decided she wanted to try the new ones. After landing Miss Harn said that her only regret was the trip was so short a one.
